DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Sunday, 22 November 2020 at 06:13 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Levels of air pollution across all parts of the UK on Sunday will be Low. Cold, showery and windy conditions continue in the north. Meanwhile, it will be mainly dry for southern areas with lighter winds and some occasional rain and drizzle across the far south.

Tomorrow: Low levels of air pollution persist on Monday. Mainly dry in the south, with outbreaks of rain and strong winds spreading into the north and northwest of the UK.

Outlook: Settled conditions should become established during Wednesday and Thursday. This brings an increased risk of local Moderate, and a low chance of High levels of air pollution as winds fall light. However, air pollution levels should remain widely Low.
